

CADEKA Fact Sheet

KEY MARKETS

CADEKA develops high performance analog products for markets/applications such as:

- Instrumentation
- ATE (Automatic Test Equipment)
- Medical and Industrial Imaging
- Communication
- Professional and Consumer Video
- Industrial and Military

QUALITY POLICY

CADEKA is committed to:

- Providing products and customer services that meet or exceed our customer's expectations
- Providing our customers with products that are compliant with environmental regulations

All new products are Pb-free and RoHS compliant.

CADEKA's quality system follows these procedures:

- ISO9001
- MIL-STD-1772
- MIL-PRF-38534
- MIL-STD-38510
- MIL-STD-883, 1.2.1

About CADEKA

CADEKA Microcircuits LLC is a global supplier of high-performance analog and mixed-signal semiconductor products for customers who require cost effective, leading edge performance. The company's expertise and passion is to **Amplify the Human Experience™** by providing application specific, solution-based semiconductor products that drive the industry's next generation consumer, communications, industrial, instrumentation, and medical products.

Company Overview

- Privately held, fabless semiconductor design and manufacturing company, established 2003
- Corporate headquarters located in Loveland, Colorado USA
- Additional sales offices located in China and Europe

The Team

- Core management and design teams have been working together for 20 years
- Teams initially formed within the Comlinear Corporation and developed expertise at National Semiconductor, KOTA Microcircuits, and Fairchild Semiconductor
- Experienced analog and mixed-signal design team with high performance analog design experience and is considered a leader in the design of signal conditioning solutions

Analog Products

- CADEKA specializes in high-performance analog solutions, including:
 - High performance Operational Amplifiers
 - Video Amplifiers
 - Data Converters (ADC & DAC)
 - Application Specific Standard Products (ASSPs)
 - And other Signal Path Solutions
- Additional capabilities include:
 - Hybrid amplifier manufacturing
 - Supplier of high-quality replacement products

Sales and Distribution Partners

- CADEKA supports and maintains representation in 87 countries
- Distribution channel combines direct, independent, and distributor representation
- Combined world-wide sales/support includes > 450 Field Applications Engineers

CADEKA's Unique Value Proposition

CADEKA provides signal-conditioning solutions that meet or exceed the customer's design requirements and outperform competing products at a competitive price. The company provides value in other avenues through applications engineering support and high levels of customer support.
