

1. IS: Custom Manufacturing Services
 - a. SHOULD BE: Data Converter Products
2. Change Bullets to:
 - a. View all Data Converter Products
 - b. Product Tables
 - i. Analog-to-Digital Converters (ADCs)
 - ii. Digital-to-Analog Converters (DACs)
3. Remove Latest Products Section – I know this makes for a skimpy section, but if we put the new products here, then there will be times when they are repeated under the New Products section on the right. Also, we will not have as many new data converters in the first couple years...so the latest products will be the same for a long time. On second thought.... we only have a couple converters at this time. Maybe it is OK to list the three that we have in this section....Thoughts?
 - a. If you think we should keep this section...here is the data
 - i. CDK1108 – 8-bit 200MSPS ADC
 - ii. CDK1110 – 10-bit 70MSPS ADC
 - iii. CDK3813 – Octal 13-bit DAC
4. The Design Tools and Collateral section should be the same as the one for the “homepage”, with the following exception
 - a. Please use the data converter selection guide pdf as the result to the Selection Guide (pdf) link. See attached file.
 - i. Will I easily be able to update this pdf?
5. The New Products section on the right is the same as the one on the home page.
